

E65

Description & Specifications

Elliptical E65 is designed with an inviting modern style, and the stride in ergonomics delivers a natural path without discomfort, impact, and injury. Bilateral multi-grip handles drive with pedals simultaneously that ensure body balance and stability during workouts. The transport wheel installs on the forepart of the machine for convenient moving and positioning. The stride movement is designed with a suspension system that facilitates the exerciser to master a realistic feeling of each pace. And this optimal devising can decrease the friction noise caused by the machine.
