  - . a. Training Time
  - . b. Calorie
  - . c. Goal
  - . d. Accumulated Data
  - . e. Counting Down Data

### MSP800 Shoulder Press Machine

Built to deliver strength—and deliver it does. Structurally and biomechanically designed for intensive club use, the Shoulder Press' rigid body structure plays a critical role in the machine's superb handling. Its large base frame aids stability and comfort, and yields a neutral weight distribution. Substantial rear and side subframes help eliminate lateral torsion and vibration.

### SPECIFICATIONS
