Introduction:

The power rack is made from heavy gauge steel to ensure stability and safety during intense training of the total body. Freedom of movement combined with front and rear frame, gunrack on the rectangle mainframe with an innovative setup platform gives the user the ability to walk the bar up and down without removing plates. The protective post installs on each side to enhance safety for the exerciser.

Adjustable safety positions make this Club Line Power Rack a must-have for those who want to strength train without compromise. Designed to work with all types of benches and engineered for extreme workouts. The pull-up bar adds to the finishing touch on this serious piece of kit!
